REASON FOR ALLOWANCE

2. Claims 1-13 are allowed over prior art of references.
3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is for at least the reason of the inclusion of a *self-repair circuit for storing only minimum address pairs in a self-repair buffer to determine a redundant line for repairing an abnormal cell in a grouped unit blocks of two-dimensional (in both row or column of first and second directions) oriented using two confirmation processes* as disclosed with all the limitations in claims 1-13.
